Guarantee, Experience, Knowledge of Regulation Statement

As evidenced by the attached reference list, Sealcoating, Inc. d/b/a indus has extensive experience in repairing and sealing asphalt cracks on public roads. We keep current on the latest information from state and local regulatory agencies.

Sealcoating, Inc. d/b/a indus guarantees that all our laborers involved in the crack sealing work are OSHA certified and have received safety training as new hires. While employed at Sealcoating, Inc. d/b/a indus they also receive ongoing safety training throughout the season.

Our crack sealing supervisors have passed the Crack Treatment Certification Exam given by the National Center for Pavement Preservation at Michigan State University. I have attached these certifications. Our laborers are experienced in the use of crack sealing equipment and have received on the job training by our certified supervisors.
