## EXPERIENCE & RESPONSIBILITIES

Jack Cerra is an Environmental Technician in Atlas's East Hartford, Connecticut office. Mr. Cerra has experience in Phase I Environmental Site Assessments for residential properties, including site reconnaissance and regulatory agency and local file reviews. Mr. Cerra performs field sampling activities associated with groundwater monitoring programs, soil sampling collection, and remedial excavations.

## PROJECT EXPERIENCE

**Environmental Services, Phase I ESAs:** Conducted numerous site investigations relating to Phase I assessments. This process can include site reconnaissance, historical research at local municipalities and state agencies, and completion of reporting in compliance with ASTM standards.

**Environmental Services, Phase II ESAs:** Activities including oversight of environmental drilling, soil characterization, monitoring well installation, soil, soil vapor, and groundwater sampling, and technical report writing.

**Remedial Planning and Implementation:** Involved in all facets of soil and groundwater remediation; preparation of Remedial Action Plans, field oversight and sampling, and Completion of Investigation reporting

**Retail Gasoline Station Site Construction Upgrades:** Completed environmental work related to the replacement of USTs and associated dispenser and fuel line components at numerous retail gasoline stations throughout Connecticut. Project work includes the preparation of state and federal permits associated with construction dewatering, soil disturbance, and soil disposal.

**Environmental Compliance Assistance:** Involved with projects for multiple municipalities across Connecticut including landfill, stormwater, and wastewater monitoring and permit preparation and compliance. Includes development of proposals, field sampling, and reporting.
