IT Datacenter Services

CRCOG General IT Services enable municipalities to have an independent perspective on IT and create customized solutions to meet their individual needs. CRCOG is proud to have partnered through a competitive bid process with Connecticut Center for Advanced Technology (CCAT) as our IT Strategic Partner, a 501(c)3 corporation to offer these services.

CCAT works with many towns in Connecticut already and is attuned to the unique challenges faced by municipal IT.

CCAT is uniquely positioned on the Connecticut Education Network (CEN) to offer high-quality, scalable platforms that allow you to maintain complete control over your data while taking advantage of our technology and expertise. Consolidate IT functions, optimize security, and efficiently distribute information and resources among users, partners and the local community.

Available Services:

Hosted servers

- Host your organization's file servers, email servers, and domain controllers.
- Leverage private cloud resources to scale and host specialty applications.
- Managed and supported by experienced CCAT staff.
- Physical-to-Virtual server conversion available.

Backups and disaster recovery

- Save money on hardware, backup to CCAT's systems.
- All hosting plans include backup services.
- Standalone backup and disaster recovery services available to ensure long-term data integrity in any scenario.
- Veeam Cloud Connect options available for Veeam customers, allowing for simple setup and management

Datacenter facilities

- Co-locate your physical servers in CCAT's datacenter.
