

CCM AND CRCOG RELEASE UPDATED SALARY SURVEY DATA!

In advance of the holidays and just in time for budget season, the [Connecticut Conference of Municipalities \(CCM\)](#) and the [Capitol Region Council of Governments \(CRCOG\)](#) are pleased to announce the release of FY 2017-2018 Municipal Salary Survey Data at CTMunicipalData.org. More than 130 communities completed this year's survey, marking another successful on-line data collection effort through the platform designed and maintained by the [Connecticut Center for Advanced Technology, Inc. \(CCAT\)](#).

NEW THIS YEAR

Based on an updated questionnaire and new reporting features that came on-line earlier this year, towns can now:

- Download [union contracts](#) from the site, along with job descriptions and organizational charts as part of a new document section
- Calculate [median](#) salaries
- Compare [multiple positions](#) across communities
- Download [STATEWIDE](#) salary data to one file for additional analyses

COMING SOON!

Staff is still hard at work reviewing and cleaning the [new health and other benefit plan data](#) (health, vision, dental, LTD, etc.) collected this year. Please note that previously submitted surveys may be pulled off-line temporarily to make needed changes, so if you don't see survey data for a particular community, please check back again soon.

Watch for an announcement in early January about the release of this new data set.

A FEW REMINDERS...

1. While we have already uploaded the latest DPH [population figures](#) into the system, updated [mill rates](#) are not expected to be available statewide from OPM until February.
2. Both the [FTE question](#) that was initially asked in FY 2016-2017 and the revised version that was posed in FY 2017-2018 have been pulled from the published data sets due to inconsistent responses. If you have a question regarding these data points, please contact CCM or CRCOG directly.
3. Have general questions on how to access the data and run related reports? Did you notice some odd data outliers? Please contact AJ Birmingham at CCM at abirmingham@ccm-ct.org or Hedy Ayers at CRCOG at hayers@crcog.org.

WISHING YOU ALL A WONDERFUL HOLIDAY SEASON AND A JOYOUS NEW YEAR!

The CCM, CRCOG and CCAT Team
