4	Congestion Mitigation and Air Quality	0170-3496	Various	Statewide	FY18: Statewide Transportation Demand Management Greater CT (Moderate)	OTH	2018	1,927	1,542	385	0	New Project; See Attached Sheet

*Due to the urgency of programming projects, some additional projects may be added prior to the meeting.*

<sup>1</sup> *Three of the new equipment installations are in Ellington (Rt 83 at Rt 140 and Rt 83 at Mountain Road) and Wethersfield (at Rt 175 and Ridge Road); The signal revision is to upgrade pedestrian control features at Route 189 and Rt 178 in Bloomfield*

*Note: The terms "AC Entry" and "AC Conversion" are referenced for projects 1a and 1b above. AC stands for Advance Construction and is a phrase used to describe a financing procedure in which a project is advertised for construction bids late in one year (noted as AC Entry) but the actual funding commitment occurs in the following fiscal year (noted as AC Conversion). Thus, these projects are typically listed for both years with "0" funding shown in the first year of advertisement, and the full funding shown in the second year or years of funding obligation. In some cases, a portion of the AC conversion can occur in the year of the AC Entry, with additional funding occurring in the following year or years.*

<b>Project Description (short):</b> 26 (30 Characters)	Statewide TDM (Greater CT)
<b>Project Description (long):</b> 213 (254 Characters)	Provide funds for the Statewide Transportation Demand Management (TDM) project (Greater CT moderate portion) for the period 07/01/2018-06/30/2019. This project replaces P/N 170-3451OP which expires on 06/30/2018.

<b>Justification:</b> 819 (1333 Characters)	Using selected contractors, CTDOT will market, educate and provide outreach to employers and individuals in support of CTDOT's statewide Transportation Demand Management (TDM) program in the Greater Hartford and New London areas of the state under the brand name CTrides. This program assists in the formation and long-term viability of carpools and vanpools, and includes affinity products which support the creation and long-term viability of carpools and vanpools. This program also provides comprehensive resources to help employers design, implement and maintain teleworking programs. This program will reduce the number of employee work trips, decreasing traffic congestion, energy consumption and air pollution. FHWA approved the scope and budget for this full oversight project on xx/xx/2018. PAED 06/29/2021.
