

#669 Fuel Oil Bid Notes

1. The pricing in the bid tabulation packet reflects the differential and the mark-up submitted by most vendors. In order to see how the mark-up affects pricing in comparison to other vendors, the Excel spreadsheet is a better tool to review pricing.
2. Roberts Energy did not submit a mark-up, they submitted a total fixed mark-up price which was not indexed to the same information as the other vendors. We asked them to submit their mark-up and that information has been updated in the Excel spreadsheet.
3. East River Energy has submitted a document labeled Attachment A which has some provisions not included in the CRPC contract language. Please read this document carefully! If you have questions or concerns about these terms & conditions, please clarify with East River Energy before signing.
4. Dime Oil has submitted a letter including additional terms & conditions. Please read this carefully! If you have questions or concerns about these terms & conditions, please clarify with Dime Oil before signing.
