

# STRATEGY 1

## HISTORIC AND CULTURAL RESOURCES

NO.	OBJECTIVE OR ACTION	SOURCE
1.1	Identify additional historic resources in areas of flood and wildfire risk.	SHPO, Risk Assessment
1.2	Identify tomorrow's historic resources in areas of flood and wildfire risk.	SHPO, Risk Assessment
1.3	Conduct pilot project to identify feasible floodproofing methods for a group of historic resources in an area of flood risk.	SHPO, Risk Assessment
1.4	Conduct pilot project to identify feasible fire risk reduction methods for a group of historic resources in an area of wildfire risk.	SHPO, Risk Assessment

# STRATEGY 2

## REPETITIVE LOSS PROPERTIES

NO.	OBJECTIVE OR ACTION	SOURCE
2.1	Conduct a formal validation (with corrections) of the Repetitive Loss (RL) list for each municipality. For example, Plainville’s list does not show “yes” for “Mitigated?” where it should, and Mansfield’s list includes a property in Willimantic.	Risk Assessment
2.2	Review the RL list annually and conduct validation as needed.	Risk Assessment
2.3	For CRS communities, conduct a new or updated RL Area Analysis.	Risk Assessment
2.4	For all communities, send a letter to owners of RL properties to advise them of actions that can be taken to reduce flood risks.	Risk Assessment

# STRATEGY 3

## HELPING SMALL BUSINESSES MITIGATE IMPACTS OF HAZARDS

NO.	OBJECTIVE OR ACTION	SOURCE
3.1	Improve chemical safety practices by small businesses throughout the region to prevent disruption of economic activity and protect the environment and public health.	DEEP, Risk Assessment
3.2	Increase awareness by small businesses of any chemicals/toxic products they use, store, and/or sell and to use best management practices (BMPs).	DEEP, Risk Assessment
3.3	Implement an educational program for small businesses with recommendations for best management practices to prevent pollution from chemicals getting out into the environment.	DEEP, Risk Assessment

# STRATEGY 4

## STORMWATER MANAGEMENT

NO.	OBJECTIVE OR ACTION	SOURCE
4.1	CRCOG staff update the Transportation and Municipal Services Committees regarding the MS4 program and state requirements.	CRCOG, Risk Assessment
4.2	In 2016, CRCOG issued a RFI for stormwater management planning services to gather information that could be used to develop an RFP for consulting assistance for impacted towns. On hold because NEMO/CLEAR was developing its assistance at the same time. <i>Continue or re-cast...</i>	CRCOG, Risk Assessment
4.3	CRCOG Transportation Committee heard presentations from DEEP in 2014 on proposed permit revisions and from CLEAR in 2016 on assistance from CLEAR/NEMO. <i>Continue or re-cast...</i>	CRCOG, Risk Assessment

# STRATEGY 5

## CRITICAL FACILITIES AND ASSETS OF REGIONAL SIGNIFICANCE

NO.	OBJECTIVE OR ACTION	SOURCE
5.1	Dam Emergency Action Plan (EAP) tabletop exercises by MDC and Farmington River dam owners	Risk Assessment
5.2	Combined Sewer Overflow (CSO) Long-Term Control Plan (LTCP) is required to be updated and submitted to DEEP on a 5 year schedule. The Plan will take into consideration stormwater, drainage, and flood protection projects that the Member Towns are planning to initiate.	Risk Assessment
5.3	Consider describing/listing MDC facilities as critical facilities.	Risk Assessment
5.4	Consider resilience of sewer pumping stations and WPCFs that server multiple towns, like MDC.	Risk Assessment

# STRATEGY 6+

## OTHER CAPITOL REGION CHALLENGES

**NO.**

**OBJECTIVE OR ACTION**

**SOURCE**

# SHOULD WE REVISIT THE REGIONAL MITIGATION GOALS & OBJECTIVES?

- What was the Region's goal for hazard mitigation?

Minimize loss of life, loss of property, and economic disruptions that result from natural hazards.

- What were the Region's objectives for hazard mitigation?

1. Improve stormwater management.
2. Assist municipalities in implementing mitigation actions.
3. Assist municipalities in minimizing risks associated with power disruptions.
4. Assist municipalities in minimizing risks associated with droughts.

- **Could we craft a mitigation VISION for the Capitol Region?**
