---

The upcoming Regional Planning Commission meeting will include a presentation on CRCOG's ongoing Metropolitan Transportation Plan (MTP) update. CRCOG Staff will share an overview of the Study's work-to-date, draft recommendations, and timeline for study completion. The plan is currently available for a 30-day public comment period, which ends on March 22, 2019. The plan will be considered for adoption by the CRCOG Policy Board on April 3, 2019.

The purpose of the MTP is to establish a 25-year vision for the region's transportation system. It also establishes priorities for spending federal transportation dollars allocated to the region. The study is updated every four years and is required by the United States Department of Transportation.
