Please Review Project Information and Estimate for Approval:

<b>Project Description (short):</b> 22 (30 Characters)	I-691 RBC Design-Build
<b>Project Description (long):</b> 242 (254 Characters)	RBC Project - Resurfacing, bridge rehabilitation, and safety improvements on approximately 2.764 miles (MP 1.906 - MP 4.67) of mainline I-691, plus ramps, in Meriden. This project will use the innovative Design-Build project delivery method.

<b>Justification:</b> 827 (1333 Characters)	The deteriorated pavement, substandard guiderail and bridge transitions, and outdated bridge rails throughout the project limits have generated the need for this resurfacing and safety improvement project. No increase in the Federal share will be requested for the PE(PD) phase of the project, during which the RFQ and RFP will be developed, but a 5% increase in the Federal share (from 90% to 95%) will likely be requested for the CN phase of the project, based on the use of innovative project delivery methods.
