

Transportation Committee

- Staff distributed solicitation information to municipalities for projects to utilize federal CMAQ funding. Following receipt of applications, staff will rate and recommend board approval of up to five projects for transmission to CTDOT as the region's CMAQ funding priorities. Projects from all regions then will compete statewide for CMAQ funding selections by CTDOT.
- CTDOT has informed the regional planning agencies that they will be resuming soliciting for transportation studies in 2021 (dates to be determined)
- Staff updated the Transportation Committee on Greater Hartford Mobility Study Progress and on Statewide and Regional LOTCIP Finances.
