Description

Product Overview:

[Translate »](#)

Looking for a versatile freestanding hand wash station that is perfect for small to medium-sized events or sites, yet provides all of the features of the industry-leading Super Twin series? Look no further than the Tag Along. Its rugged construction matches the high quality of the Super Twin, yet its lightweight footprint makes it simple to transport. In fact, the Tag Along will fit inside most standard size portable restrooms for delivery. The days of making two trips to deliver two restrooms and a sink are over!

Features Include:

- 24-gallon fresh water capacity
- 24-gallon Gray water capacity
- Foot pump operation
- Designed to accommodate complete forearm washing
- Dual, molded-in spigots make for a vandal-discouraging design
- Large cutouts make the powerful foot pumps easily accessible, even for users in heavy work boots
- No risky bags or bladders
- Fresh water compartment is easily removed for regular sanitizing
- Two Spray Soap dispensers
- Two lockable paper towel dispensers
- 1.8 gallon per minute foot pump

ADA-COMPLIANCE WITH MULTI-USE PROFITABILITY

FREEDOM 2 / STANDING ROOM ONLY

The Freedom 2 The interior space allows for a wheelchair user to turn and transfer to the seat deck with ease. The Freedom 2[®] offers convenience and compliance with laws requiring adequate turning circle space and meets all safety specifications.

The Standing Room Walk-Thru urinal. The Standing Room Only is the perfect option for clients who hold concerts, festivals and large gatherings. Two urinal troughs—enough room for 6 users at a time — enable your clients to serve large crowds faster. And enable you to expand your business opportunities.

The Americans with Disabilities Act (ADA) requires 5% of all portable restrooms and at least one unit per cluster to be ADA compliant (except construction sites). The Freedom 2[™] portable restroom from Satellite offers 100% ADA compliance with economy and style. Plus something more. In just minutes, Freedom 2 can be easily converted to the Standing Room Only 6-man urinal. Depending on your customers' varying needs, you can quickly switch the unit from one to the other and serve two profitable niches. This flexibility gives you new opportunities for expanded use and a far greater return on your investment.

Durable, lightweight construction The Freedom 2 and Standing Room Only cabana is built with rugged polyethylene for years of durable use. A one-piece seamless roof gives the unit added strength and stability.

Easy handling and transport Freedom 2 features flat, ground-level entry, eliminating the need for a ramp. That means easier set-up and no loose parts to hassle with. Hand grips on each side and built-in corner grips make moving easy. Built-in roof channels allow for easy tie-down. And the size and shape of

FREEDOM 2 / STANDING ROOM ONLY

A unique combination of durability and comfort is why operators and end users have made Tufway the most used restroom in the world.

By design, the Tufway interior is built for user comfort. It has a spacious, well ventilated interior to reduce odors due to simple, yet important features. A combination of floor and molded-in wall vents facilitate continuous air flow. The urinal drains down the vent pipe, which prevents unwanted tank odors from venting back into the cabana. The seat is positioned at the furthest point from the urinal, away from odor and user's direct sight. There is also a convenient door hook to hang a purse or jacket. Together, these features produce a more comfortable, pleasant experience for the end user.

Operationally, the Tufway is a low-maintenance, easy-to-service restroom with a long history of durability. Using fewer parts made from high density polyethylene, the Tufway can withstand impact and abusive handling without cracking or breaking. The features which make the Tufway easy to clean and service are the front sloping tank top, slightly domed floor and smooth, deep sumped tank. Adding slope to the tank and floor surface forces liquids to drain, not puddle, and the sumped tank improves deodorizer coverage and assures quick, complete waste removal.

- Large 70 gallon sumped tank
- Molded-in vent screens
- Unbreakable corner construction
- Unbreakable stand over urinal
- Convenient door hook
- Multiple flushing options
- 10 Year Limited Warranty

Developed as an alternative to full ADA compliant restrooms, the Liberty is a spacious, wheelchair accessible restroom that can also be promoted as a family-sized restroom. It has a patented flat-floor system for easy wheelchair access and maneuverability. The handrails and paper holder, together with the rotary latch, are designed and manufactured for simple end-user operation.

Operators have the distinct advantage of owning a restroom made from high molecular weight polyethylene that is durable and vandal resistance. The entire door frame, which is made of a vacuum formed twin sheet, is able to withstand hard hits and endless pounding without bending or buckling like metal frames. The patented flat floor system, combined with the strength of the side walls and capped roof, forms a sleek, modern restroom that retains its shape over the life of the product.

- Strong, twin-sheet, non-metal door frame
- Patented flat floor system
- Roof tie-down grooves in both directions
- Four corner stake down holes
- Large, easy-to-grasp handles
- Wheelchair accessible decal
- 4 Year Limited Warranty
