

CRPC #699 · INVITATION TO BID GRASS SEED & FERTILIZER

PUBLIC AMENDMENT #1: Opportunity Q&A Answers

Where do we note the Exceptions To Specifications and Substitution For Named Brands on the Bid Table?

Please upload Exceptions to Specifications and Substitutions for Named Brands separately as a part of the "Optional Additional Information (Vendors should upload notes to their bids, such as volume savings, and other relevant additional documents here)" section noted on the submission page.

When entering an Additional response for an item, how do I enter the description of the alternative item?

Unfortunately Bonfire's bid tables don't allow vendors to write in an alternative description. Please upload exceptions to specifications and substitutions for named brands separately as a part of the "Optional Additional Information (Vendors should upload notes to their bids, such as volume savings, and other relevant additional documents here)" section noted on the submission page.
