**Subject:** County Equivalency Update

I'm happy to report that OPM has notified the U.S. Census Bureau that it is ready for them to finalize the county equivalency change process and to formally announce it in the Federal Register. More information will be forthcoming from OPM about the timing of that notice and coordination of any press releases.

Our Regional Councils of Governments have been informed and will be reaching out to their municipal leaders as well.

Thanks for your support, teamwork and patience throughout this lengthy process.
