General Information:

Hart's 25-0-12 w/1% Iron is a premium fertilizer designed for high quality turf & dark green color w/controlled slow-release feeding. 60% of the available N is from advanced generation controlled release technology. The slow, steady release of XRT delivers up to 90 days of reliable, efficient feeding. The addition of 1% Iron results in dark green color & the Micronutrient package provides the additional nutrients needed for thick, vigorous & healthy turf.

Application Instructions:

Vary your rates according to soil test results and desired turf quality & maintenance programs. Note that settings are a guide only. Calibrate as necessary.
