(stated in millions)**

* Includes Type 1 and Type 2 Claimants Paid as of 10/8/21

Our Universe of Claimants (10/8/21)

Where Do We Go From Here?...

- CFSIC's sunset date has been removed by legislation.
- We are budgeting approximately \$184.8M in future revenue between July 1, 2022 and June 30, 2030.
- On January 5, 2022, Pending claimant evaluation begins for the first time.
- Our goal is to put Pending claimants in line beginning in July 2022, four years ahead of schedule.
- We believe that the residential crumbling foundations crisis rests at 3,000 to 5,000 claimants in total in the affected area.
- Our non-residential town by town crumbling foundations evaluation process began in July...we expect to have reports on the top ten towns by March 1, 2022.
