DIRECTION FOR USE:

The salt is not approved for human consumption. The salt will be distributed as a highway deicing salt. Rock salt is to be spread on streets and highways to remove ice and snow.

ADDITIVES:

Rock salt contains Yellow Prussiate of Soda, an additive put into salt to keep it from caking.

TYPICAL BULK DENSITY:

74-80 LB/FT³

PACKAGING:

Rock salt for removing ice and snow is in bulk form only. Bulk quantities are shipped by truck.
