Capitol Region Purchasing Council of Governments  
241 Main Street #4  
Hartford, CT  
06106

### **REF: Invitation for Bid #701 Recycling Bins**

Busch Systems International Inc. would like to thank the Council for the opportunity to bid on this project. Attached please find the completed bid forms, information forms, product specification and COI.

### **Proposed Products**

The products we are offering to provide to the council is our Curbside Series <sup>TM</sup>. We are offering our TRUE Curbside 14 gallon recycling container, our TRUE 16 Curbside 16 gallon recycling container, and our TRUE 18 Curbside 18 gallon recycling container.

These durable containers are popular for curbside recycling collection. They are flexible enough to deflect rough handling but strong enough to be lifted and dumped when loaded to capability. All of our curbside recycling containers are designed to be low profile, thus reducing their profile height.

Busch Systems has been successfully manufacturing and supplying recycling and waste containers since 1985. As part of our proposed solution we will share our expertise, and deliver a customized container, and work closely with any staff to ensure any challenges or concerns are addressed in a timely manner.

As we own the molds and manufacture the containers in addition to providing customer service and processed our orders in-house, Busch Systems has full control of almost every aspect of the fulfillment of the project and can guarantee excellent completion of the work in a timely manner.

### **Warranty**

Warranty for all proposed products will be 5 years from delivery to receiving dock against manufacturing defects.

**Additional Information: Consulting Services**

Busch Systems Consulting is a service designed to meet the comprehensive needs of organizations' recycling and waste collection programs, and for our customers to get the help and support they need to maximize their diversion program. Some of the services we provide include. Please reach out to [diversion@buschsystems.com](mailto:diversion@buschsystems.com) or call 1-800-565-9931.

- Onsite Waste Audits
- Signage and Labelling Recommendations
- Bin Infrastructure Evaluation and Recommendations
- And Many More!

We hope that the council will find our offer to be acceptable, and look forward to being of service to you and your team.

Sincerely;  
Busch Systems International Inc.

Elaine Heissler  
Contracts Coordinator
