

To Whom It May Concern:

Schaefer Systems International, Inc. is please to submit our bid to the Capitol Region Purchasing Council. Schaefer has been manufacturing rollout containers for decades worldwide and for the last 30 years in the United States. Annually, we manufacture and deliver in excess of 2 million injection molded rollout carts in the United States alone. Our reputation in the industry is one of quality, reliability and delivering what we promise.

Our plants run to the strictest of ISO9001 standards, and our administrative processes focus on providing outstanding customer service during every interaction. Our carts meet or exceed ANSI Z245.30-2008, ANSI Z245.60-2008 and ANSI Z245.1-2008 standards, the most current ANSI standards for refuse and recycling containers.

I encourage you to contact our references. You will see that our goal is to exceed expectations by providing quality carts backed by exceptional customer service.

Please review our proposal and contact me with any questions you may have. I will be the primary contact for this contract. Our team appreciates the opportunity to continue working with customer in your state.

Best regards,
