

Exceptions to the technical specifications in Section II are listed below. Please note Schaefer carts meet all applicable ANSI standards for recycling containers and are fully compatible with tippers/lifters meeting ANSI standards.

Weight (fully assembled carts):

- Schaefer 65M: 32 lbs.
- Schaefer 95Q: 36 lbs.

Drainage: Standard recycling carts do not have drainage holes. The lid prevents rainwater from entering the cart.

Wall:

- Schaefer 65M: 0.150" minimum with 0.185" in critical wear areas
- Schaefer 95Q: 0.170" minimum with 0.185" in critical wear areas

Material: Industry standard 10" plastic wheels offered for both 65M and 95Q model carts.

Warranty: Ten (10) year warranty offered. We require a minimum of 350 carts to initiate a return of carts to our plant. If 350 carts are not available, photos of the carts to be evaluated may be submitted to initiate the warranty claim process. Schaefer reserves the right to inspect allegedly defective containers. Determination of warrantability rests jointly with Schaefer and the buyer.
