

## **ECG Gap Closure Study RFQ – Questions & Answers**

**Task 3 in Exhibit D Draft Scope of Work is missing Task 3E (see paginated p. 15 in the pdf). Is there a Task 3E? If so, can you please amend Exhibit D to include it?**

There is no missing scope for Task 3E, rather, “E” was unintentionally skipped over. Please feel free to relabel the following tasks accordingly (3F becomes 3E, etc.).

**The UPWP listing for this project states “*Consultant Services will be used to supplement staff resources*”. Can you please specify what portion of the funding allocated will be used for CRCOG staff resources, as well as the budget available for the Consultant?**

Based on funding sources, this is a qualifications-based selection process and we are unable to answer any questions regarding the project budget. Once the top rated team is identified, final scope and the project fee will be negotiated.
