CN Project ID: **DOT00630737CN**

Please Review Project Information and Estimate for Approval:

Project Description (short): 30 (30 Characters)	Bridge #00371A Rehabilitation
Project Description (long): 115 (254 Characters)	Rehabilitation of Bridge 00371A (Founders Bridge) carrying Route 2 over I-91 and the Connecticut River in Hartford.

Justification: 650 (1333 Characters)	<p>Bridge 00371A, built in 1958 and reconstructed in 1999, is currently in satisfactory condition. The superstructure has isolated locations of heavy rust with areas of moderate rust at the end diaphragms. The wearing surface has large open paving seams with potholes and ponding water. There are hollow areas at the deck and piers. This project will include bridge deck repairs, resurfacing, joint replacement, painting at beam ends and bearing areas, substructure repairs, and removing the movable inspection platforms. An RSR will be done to determine if further rehabilitation work is required for this bridge. The PE phase includes a PD/FD split.</p> <p>This project is being initiated under the "Major Bridge Program," a Statewide Program to address the Department's Major Structures within our bridge inventory as a priority and maintain their major components in a "State of Good Repair." Rehabilitation, replacement, and/or preservation projects for Major Bridges are being programmed using additional reauthorization funding from the Infrastructure Improvement and Jobs Act (IIJA).</p>
Project Manager: Bao Chuong	
Project Engineer:	PPI #PP042-0015. For OBL and 2025-2028 STIP, Federal funds for CN to be phase financed with \$4.56 million in FY26 and balance in FY27; "Brdg-Pres" PH's in OBL to be reduced accordingly.

Scope Code: **BP 1** BP 1 - Major Bridge Rehab/Replacement

Please Review Project Information and Estimate for Approval:

Project Description (short): 26 (30 Characters)	Pavement Markings (2 of 4)
Project Description (long): 247 (254 Characters)	Job Order Contracting (JOC) program through 12/31/25 for Statewide install of pavement markings. Project 170-3650 is for District 2 administrative purposes; w/State projects 170-3649, 170-3651 & 170-3652 under one Federal #000T(347). PAED 6/30/29.

Justification: 1240 (1333 Characters)	This JOC program will be administered by CTDOT's Bureau of Highway Operations, which will contract through the CT Department of Administrative Services for the installation of pavement markings on various State roadways, per the Work Plan. Pavement marking types may include, but not limited to, Epoxy Resin, Polyurea, Permanent Tape, and High Build Waterborne. Pavement markings may include long lines, symbols, and legends, along with removal as needed, to maintain the delineation of existing travel lanes and shoulders. Under the JOC delivery method, CTDOT will obtain bids from contractors on an indefinite quantity of work for specific work items, with actual work locations defined by CTDOT during development of individual purchase orders. Four State project numbers are being established, one per District for administrative purposes, with all four State projects under one Federal project #000T(347) and one State "Summary" project DOT01703649SM. All construction and inspection costs (e.g., oversight by State Forces, police services, materials testing) are federally eligible. 100% Federal STPA funds to be budgeted for 2023 construction season with future AC conversions to budget funds for 2024 and 2025 construction seasons.
Project Manager: Carlos Wimberly	
Project Engineer:	This project replaces project 0170-3578, which was originally planned to run through 12/31/23, but was terminated on 12/31/22 due to cancellation of the existing contract with DAS and initiation of a new contract.

MOD # RPM

From: J. Adams for Aron Steeves
PE or PL Project ID:
FD Project ID:
RW Project ID:
CN Project ID: **DOT01703652CN**

Please Review Project Information and Estimate for Approval:

Project Description (short): 26 (30 Characters)	Pavement Markings (4 of 4)
Project Description (long): 247 (254 Characters)	Job Order Contracting (JOC) program through 12/31/25 for Statewide install of pavement markings. Project 170-3652 is for District 4 administrative purposes; w/State projects 170-3649, 170-3650 & 170-3651 under one Federal #000T(347). PAED 6/30/29.

Justification: 1240 (1333 Characters)	This JOC program will be administered by CTDOT's Bureau of Highway Operations, which will contract through the CT Department of Administrative Services for the installation of pavement markings on various State roadways, per the Work Plan. Pavement marking types may include, but not limited to, Epoxy Resin, Polyurea, Permanent Tape, and High Build Waterborne. Pavement markings may include long lines, symbols, and legends, along with removal as needed, to maintain the delineation of existing travel lanes and shoulders. Under the JOC delivery method, CTDOT will obtain bids from contractors on an indefinite quantity of work for specific work items, with actual work locations defined by CTDOT during development of individual purchase orders. Four State project numbers are being established, one per District for administrative purposes, with all four State projects under one Federal project #000T(347) and one State "Summary" project DOT01703649SM. All construction and inspection costs (e.g., oversight by State Forces, police services, materials testing) are federally eligible. 100% Federal STPA funds to be budgeted for 2023 construction season with future AC conversions to budget funds for 2024 and 2025 construction seasons.
Project Manager: Aron Steeves	
Project Engineer:	This project replaces project 0170-3580, which was originally planned to run through 12/31/23, but was terminated on 12/31/22 due to cancellation of the existing contract with DAS and initiation of a new contract.
