*Un interprete estará disponible para esta reunión si usted lo solicita al (860)-256-4923 lo más pronto posible.*

Study area

CRCOG's Capitol Region East Coast Greenway (ECG) Study is exploring alternatives to close off -road gaps in the ECG route through the Capitol Region. Currently, uncertainties in the trail route exist in Simsbury, Bloomfield, Hartford, and East Hartford.

The study will examine potential routes and conclude with the selection of a final alternative for all remaining gaps.

The study will also evaluate costs and benefits of route options including but not limited to:

- Environmental impacts
- Property ownership
- Waterbodies and courses
- Construction
- Trail attractiveness
- Usability & safety
- Job access & public transit
- Geographic & community equity
