

CRCOG: Capitol Region Council of Governments

RFQ: Firefighter, DOT/Public Works, and Pre-Employment Physicals

On behalf of Connecticut Occupational Medicine Partners, LLC, we are pleased to submit the following proposal for consideration by the CRCOG and Capitol Region Purchasing Council (CRPC) members for their use in retaining the services of successful Respondents of their choice.

This proposal is for providing scheduled appointments for the services requested at the following COMP Network Affiliations:

Trinity Health Of NE (St. Francis Hospital): 1000 Asylum Avenue, Suite 4320, Hartford (860) 714-4270

Trinity Health Of NE (St. Francis Hospital): 100 Deerfield Road, Windsor (860) 714-9444

Trinity Health Of NE (St. Mary's Hospital): 1312 West Main Street, Waterbury (203) 709-3740

Trinity Health Of NE (Johnson Memorial): 155 Hazard Avenue, Suite 6, Enfield (860) 763-7668

Trinity Health Of NE (Mercy Hospital-Workwise): 271 Carew Street, Springfield, MA (413) 748-6869

ECHN, CorpCare Occupational Health: 2800 Tamarack Avenue, Suite 001, South Windsor (860) 646.4796

Bristol Hospital, Medworks: 975 Farmington Avenue, Bristol (860) 589-0114

COMP's Network Affiliates have thoroughly reviewed the "Scope of Services" and have confirmed that all services requested are indeed available. We accept all terms, conditions, and requirements contained in the RFQ. Our company certifies that this RFP is being submitted without any collusion, communication, or agreement as to any matter relating to the RFP with any other respondent or competitor.

Our primary focus is to help identify and address the occupational health needs of the employer by customizing a plan to suit the company's individual requirements. All our locations provide a host of pre-employment, medical surveillance and post injury management services for work-related injuries and illness. *Our clinics are dedicated solely to the treatment of work-related injuries and illnesses.*

Our clinics are available during normal business hours (Monday through Friday 8:00 AM – 4:00 PM) for all medical services. For public safety employees and fire department personnel, these individuals can have their medical needs/physicals addressed in the **EVENING** at any one of the locations listed on the **After Hours & Weekends flyer**.

Our Medical Director and Physicians are Board Certified in Occupational Medicine or Emergency Medicine, and certified as a Medical Review Officer, which allows us to deliver superior services, accelerated return to work and cost-effective outcomes. Our Physician Assistants and Nurse Practitioners are also Board Certified, and our professional technical staff hold certifications in NIOSH pulmonary function testing. We hold all required licensures, registrations, and certifications to do business in the State of Connecticut.

In summary, all medical staff has a clear understanding of the appropriate OSHA standards that apply to fire service personnel, DOT/public works employees, and general employees. Our references are comparable contracts within the last 3 years. For example, in 2021, one of our clinics performed over

4,578 Medical Surveillance that included NFPA 1582 Fire Fighter Physical and Respiratory Exams, OSHA 29 CFR 1910.134 Respiratory Exams, PPDs, Hazmat Exam, N95 Fit Tests and DOT Commercial Driver's License Medical Evaluations meeting your requirements.

Our referral network includes orthopedic surgeons, neurosurgeons, and other specialists to insure timely referrals. On-site physical therapy, x-ray and lab services are available at most locations.

This bid includes, but is not limited to, the following:

- Access to an Occupational Medicine Clinician for prompt medical exams ensuring scheduled appointment times.
- Review Respiratory questionnaire and providing medical clearance exam for Fire Fighters utilizing OSHA 29 CFR 1910.134 Standard.
- Furnish the Fire Department or member municipality a record that indicates written recommendation on employee's ability to wear a respirator or describing all test results.
- Referral to employees to own medical provider if found unable to wear a respirator.
- Provide fit testing for N95 Masks.
- Provide TB Testing (Mantoux or equivalent).
- Provide Federal Motor Carrier Safety Regulations (FMCSR) Certified Medical Exam Providers.
- Provide Commercial Driver License medical evaluations and issue medical certificate as appropriate and needed.
- Provide direct and continuous communication to the MEMBER designated employer representative.

Please refer to our brochure for a list of core services offered by the COMP network.
