

Genie Innovations is the **No Bid / No RFP** VOIP telephony provider for the State of CT in Partnership with **CRCOG**.

CRCOG is proud to partner, through a competitive bid process, with Connecticut-based **Genie Innovations, Inc. (IP Genie)** to offer robust and secure VOIP telephone solutions to Municipalities, Schools, and Libraries **without requiring a bid or RFP.**

The advanced technology, features, and reduced capital expense of **IP Genie** VOIP may be enough incentive for many municipalities. For some, the operational savings on line fees alone will pay for any investments in short order and quickly yield **net savings with a lower total cost of ownership due to CRCOG's negotiated price points.**

Benefits:

IP Genie empowers you to employ your organization's telephone number on any device, including your computer, laptop, and cell phone, offering unparalleled flexibility in how you connect.

In addition to all the telephony features you've come to know and love, The Genie Commander, our suite of mobile and desktop applications offers:

Talk: Handle incoming and outgoing calls from your work extension right on your cell phone. Rest assured, a 'do not disturb' function is at your fingertips for times you choose to disconnect.

Text: Communicate via SMS using your municipal phone line directly from your personal device.

Video: Engage in audio and video conferencing equipped with all the necessary tools for effective team collaboration.

Say farewell to the hassle of juggling multiple mobile devices and the discomfort of sharing your personal cell number for work purposes.

The Power of Shared Services:

Cost Savings: By pooling resources, municipalities can achieve significant savings on their telephony expenses **without sacrificing any of the privacy, support, or functionality of an independent contract.**

If you partake in the CRCOG IT Sharing Plan, IP Genie will provide **an additional 20% savings** on your monthly recurring service fees, providing much-needed financial relief for any size municipality.

Shared Services In Action:

Whether you're a small town or a larger municipality, our Shared Services model is flexible and can be scaled to meet your specific needs and requirements.

RHAM, Region 4, and Region 7 school districts are an excellent example of Shared IP Genie VOIP Services in Action.

Give us a call to set up your free consultation to determine what the cost effectiveness would be for your organization.

Take Command of Your Communications with **Genie Commander**, an IP Genie VOIP service for Municipalities.
