## PROJECT MEMORANDUM FOR ENGINEERING - NO PPI

DATE: 3/13/2024 L. Zhang for Melanie Zimyeski To: Darren E. Meyers MOD# From: DOT00930250RE **Director of Capital Services** RE Project ID: **Bureau of Finance & Administration** FD Project ID: RW Project ID: CN Project ID: Please Review Project Information and Estimate for Approval: Project Description (short): Wrong Way Rumble Strips Pilot This research project provides funds for CTDOT, in collaboration with UCONN, to test and validate previously designed cross-sections of Wrong Way Rumble Strips in a controlled test environment. **Project Description (long):** PODI term project through 12/31/24; PAED 6/30//28. CTDOT received FFY 2023 STIC Incentive Program funding to support a pilot test of previously Justification: designed Wrong Way Rumble Strips in collaboration with the University of Connecticut (UCONN). The project includes physically constructing three designs and then deploying them in a controlled test environment on UCONN's depot campus to conduct real-world testing to validate the simulation results. If successful, the results of this project could result in a new, novel, low technology-based application to alert drivers they are traveling in the wrong direction. There may also be benefits for drivers traveling in the correct direction. Funds were allocated in FFY 2023 (Allocation Memorandum dated 8/31/23) under Program Code Y37H and CFDA 20.200. Federal Project Manager: share is 80%. **Balazs Szoke** Finance notes: This project is a joint effort that involves staff from both CTDOT's Research and Engineering areas. Project Engineer: Authorization for UCONN to begin is restricted by UCONN MOU execution, FHWA agreement execution, Core-CT budget establishment and UCONN purchase order approval. While awaiting a determination from FHWA regarding whether this project requires an individual STIP entry, CTDOT is taking steps to include in the STIP in case it is required. **Scope Code:** #N/A Requested Schedule (Proj.
