- Next Steps and Action Items

Working with the Regional Planning Commission (RPC) and a Technical Advisory Committee, CRCOG staff has prepared a draft 2024 CRCOG Plan of Conservation and Development. Like local plans, state statutes require COGs to update their regional plan every ten years. CRCOG's current plan was adopted in 2014.

Staff will provide an overview of key factors driving the topics covered in the plan, an overview of plan themes and goals, and review the upcoming public review and adoption process. The RPC anticipates holding a public hearing on the Plan in September and upon its endorsement will forward the Plan to the Policy Board for approval at its November meeting.

Your attendance at this workshop will help ensure that the Plan reflects the needs and priorities of our region.
