

MeltMORE+ is natural sodium chloride crystals treated with an organic PNS approved proprietary formulation of liquid containing calcium chloride and tree juice. **MeltMORE+** has many service and environmental benefits including:

- **MeltMORE+** liquid is PNS Approved
- Adhesion, sticks better to roads, parking lots, and sidewalks
- Eutectic temperature of -25°F, working temp -15°F
- Non corrosive to ferrous metals
- Less damaging to concrete, by being less damaging to metals and concrete
- **MeltMORE+** helps reduce repair and long term maintenance costs
- Activates faster, and works longer
- Safer for the environment

- Saves money by using less material and by reducing long term damages
- Dark brown, providers & clients can see where the product is
- Water soluble, does not leave stains
- Friendlier on pet paws
- **MeltMORE+** does not require chemical corrosion inhibitors, its already non corrosive!
- Organics create anti caking properties
- Safer for concrete by reducing and lubricating the recrystallization of sodium crystals

**ICE
LESS**
