## Liquid Colorants for De-icing Products

Liquid colorants provide brand identity and spray pattern indication without compromising the performance or safety of your salt formula.

### All Liquitint Colorants are:

- Stable and compatible with liquid and solid de-icing formulas
- Recognized and used by DOT nationally
- Homogeneous liquids, making them easy to handle and disperse
- Non-staining and non-ionic creating limited opportunity for skin exposure
- Water soluble - decreasing the persistence of color in the environment
- Environmentally safe
- Clean aquatic toxicity profiles
- Contains no heavy metals
- Approved by DfE and other environmental agencies
- Bright colors available in any shade
